ENHANCED CORPORATE TRAINING

Tackling Down Training Barriers Worldwide

About SOFIA

Sofia Learning Management System is a next generation corporate LMS, the platform enables businesses to scale, manage, and analyse their online training efficiently. The award-winning platform was designed to maximize on user experience. Created by **Soteria Investments**, Sofia LMS takes a new approach in software design. We believe that complexity is not a necessity when building a powerful platform. This is why our team of developers created a platform that is simple and easy to use, but powerful as well.

SOFIA

Learning Management System (LMS)

However diverse your learning goals are, whether improving productivity, reducing risk, maintaining compliance or growing sales, Sofia Learning Management System streamlines it. Sofia LMS is a cloud-based solution supporting the growing need for optimized performance, better security, instant accessibility and powerful instructor-led tools. Sofia LMS empowers compliance managers, human resource teams, sales agents, and training departments to collaborate, author, track and analyze, and instant access to reports generated from profiled data. Sofia LMS provides a collection of packaged integrations that allow businesses to seamlessly connect their learning data and training programs to critical information systems and applications. Proven integrations reduce the strain on IT, increase user adoption, shorten time to value, and provide better opportunities for blended learning.
